Luxembourg, on top of the wave

Since the signing of the Luxembourg Maritime Act in 1990, Luxembourg has developed an attractive and reliable jurisdiction for shipping, and ships flying the “Red Lion” have been navigating the seven seas. Luxembourg has even been a forerunner in terms of registration of small commercial cruise vessels in a commercial maritime register.

Today, the Luxembourg maritime legislation has proven its effectiveness and the Luxembourg shipping sector continues to grow even in a continuously challenging economic environment, and numerous synergies involving the financial, insurance and logistics sector have emerged.

The Luxembourg Maritime Administration supports the maritime sector in a spirit of service while respecting national, European and international regulations. The administration offers a quality service which, since 2000, has led to an ISO 9001 certification.
